BSW Mark II

Applications of the BSW-Mark II button shank wrapper include suit jackets and outwear or any garment requiring a shank button.

Features

Uses normal thread, which eliminates color matching issues as well as the need to buy expensive, special thread.

Suitable for any types and sizes of buttons.

Quick set up by user - friendly LCD monitor.

Perfect thread trimming with a knife.

Tight knotting preventing the button from being detached.

No needle or bobbin required.

Simple adjustment between flat and shank buttons on the control panel.

Number of wraps and knots per shank can be programmed.

Productivity of 4,000 buttons per 8-hour shift on average.
